

# CANSUPPORT

July - November 2024 | LXIX

[www.cansupport.org](http://www.cansupport.org)

## From the Founder-President's Desk

Dear readers,

Every year CanSupport marks World Hospice and Palliative Care Day (WHPCD) with a special concert and advocates on behalf of people with serious illnesses and accompanying health related suffering.

It has been 10 years since the World Health Assembly (WHO's Governing Body) passed a resolution calling for all countries to "strengthen palliative care as a component of comprehensive care throughout the life course." This is what inspired the theme for this year (2024): "Ten Years Since the Resolution: How are we doing?"

Progress has been made over the years internationally, regionally, and locally. The number of facilities for care facilities increased and efforts have been made to integrate palliative care services in healthcare systems. From 2011 to 2017, the number of palliative care services increased from 16,000 to 25,000, caring for 7 million patients, but still only about 12% of the global need was met. We still have a long way to go.

More than 60 million people both adults and children need palliative care services every year with over 80% living in low-middle-income (LMIC's) countries. While it has been estimated by the World Hospice & Palliative Care Association that over half of the need for palliative care has been met in the developed world this is certainly not true for India. We are meeting just 2% of the need which is why we are rated as one of the worst countries in which to die.

We must train more health professionals in palliative care as well as make pain medications, especially oral morphine, so essential for good pain control, more widely available. Otherwise, we run the risk of being labelled as a nation low on compassion and empathy for the seriously sick and dying.

This year, let's make it our mission to advocate for the inclusion of palliative care in our public health system so that people in rural and remote areas of our country do not suffer needlessly and can access the care they need.

Best Wishes,  
Harmala Gupta

## CANSUPPORT CONTINUES EXPANSION

We are always excited to join hands with co-advocates and agencies which empower us to march onwards and are glad that we have been able to do so together with expanding in more regions.

In August, we opened the Shimla centre to spread our reach to Himachal Pradesh. The team comprises of Dr Sushant, Nurse Shubhangi, Counsellor Sangeeta, and Public Relations Officer (PRO) Rakesh. We had signed an agreement with Indira Gandhi Medical College & Hospital (IGMC), Shimla and are thankful to them and Cipla for making this possible. Given the challenging regional terrain, it is difficult for patients, especially the severely ill, to access the hospital and medical facilities. Therefore, our teams can make a considerable impact by providing essential palliative care through home visits and 24x7 call support.

In the same month, we also branched towards Patiala. Suri Seva Foundation has been instrumental in setting up the centre there and we are grateful for their support. The team made up of Dr Harbans, Nurse Kuljeet Kaur, Nurse Counsellor Renu, and PRO Amandeep has already started assisting those in need of urgent care being proximate to Rajindra Hospital.

In another development, we have added a second team in Rohtak, Haryana. Dr Rajiv, Nurse Seema, Nurse Counsellor Babita, Hospital Counsellor Neetu, and PRO Pradeep have begun furthering our work there.

CanSupport Helpline Numbers: 011- 41010539/ 9899011212, Monday to Saturday - 9 am to 6 pm  
Saath Saath National Palliative Care Helpline : 1800-202-7777. Monday to Saturday - 10 am to 6 pm

# PROGRAM HIGHLIGHTS

July - November 2024

## Home Care

- Teams: **34**
- Home Visits: **19,552**
- New Patients Enrolled: **1,793**
- Concurrent Patients Under Care: **2,822**

## Day Care

- Sessions held: **69**
- Patients attended to: **1,546**
- Caregivers attended to: **1,306**

## Outpatient Clinics

- Teams: **8**
- New patients enrolled: **2,670**
- Patient visits: **12,271**

## Telephone Helpline

- Calls Served: **2,985**
- Service Referrals Extended: **464**

## Resource Facilitation

- New patients enrolled: **1,236**
- Patients facilitated: **1,060**
- Funds mobilised for tests and treatments from Central and State Governments: **₹ 49.4 lakh**
- Resources mobilised in-kind for patients through various networks worth: **₹ 98.21 lakh**

## HOME CARE SERVICES

Our Home Care teams continue their diligent work bringing care and warmth to patients and their families.

# PROGRAM HIGHLIGHTS

July - November 2024

## DAY CARE ACTIVITIES

Day Care attendees had a fun day out at a movie outing courtesy Tanisa Foundation. They enjoyed 'Srikant' based on an inspiring real life story. Snacks and lunch made the excursion even more enjoyable. Volunteers from Stem, a pharmaceutical company, assisted in the arrangements and smooth execution as well.

An informative virtual awareness session was conducted by Dr Divya from Rajiv Gandhi Cancer Institute to educate patients and caregivers about the importance of nutrition. As they interacted with the facilitator, they also learned how they can manage their diets whilst taking care of symptoms and maintaining general health.

Attendees of all ages joined in the festive fervour throughout October and participated in varied activities like painting clay lamps, making rangolis and other decorations. ICanDolt Theater Group spread Diwali cheer with their fun games, and song & dance which got everyone up on their feet to simply rejoice together.

## COMMUNITY OUTREACH (COR)

The COR team continues to hold free of charge camps across regions. With support of Rajiv Gandhi Cancer Institute & Research Centre, New Delhi (RGCIRC), Inner Wheel Club of Delhi, Shree Chaturbhuj Foundation, ASG Eye Hospitals, Curelo, and Clove Dental, health camps were held at Mahila Panchayat in Maidan Garhi, and Akash Gupta and Company, Greater Noida.

Our nurse trainers keep spreading awareness through educative and interactive sessions at schools teaching young learners about cancer etiology, risk factors, symptoms, prevention, and how we help patients. It is crucial they get to know that cancer is curable and early detection and vaccination can help in checking it at an early age. Hundreds of students from Sarvodaya Kanya Vidyalayas in Nangloi and Mukherjee Nagar, and Mira Model School, Janakpuri benefitted from the talks held in July and September, respectively.

Are you interested in organising an Awareness Session and/or Cancer Screening Camp in your community - Society/RWA/Office/Club/School/College?  
**Contact: [navdha@cansupport.org](mailto:navdha@cansupport.org) | 9599558368**

The team organised a promotion program for ASHA (Accredited Social Health Activists) workers in Sonipat. These dedicated community members engage with local care systems to provide health education and informal counselling, help people get care, and advocate for overall well-being as part of India's National Rural Health Mission.

## Help Cancer Patients Receive Free Palliative Care

- 1 Home Care Patient's Monthly Nutrition - ₹430
- 1 Patient's Monthly Symptomatic & Supportive Medicines - ₹840
- 1 Patient's Monthly Pain Management Medicines - ₹950
- 1 Patient's Monthly Rehabilitation with Prosthetics - ₹1000
- 1 Home Care Visit - ₹1,350
- 1 Patient's Monthly Ration (Food Supplies & Supplements) - ₹2,000

## CANSUPPORT EVENTS

### Gathering held to make a meaningful impact: Charity Dinner & Dance, Gurugram

Charity Dinner & Dance was organised to bring supporters together for assisting those living with cancer. The attendees congregated on Saturday, 3 August to gather for the cause. Harmala Gupta addressed the attendees and shared how we have continued to grow and the work we have been able to do. The event was moderated by Rajni Arora, one of our staunchest volunteers, and Dr Ambika Rajvanshi, CEO, CanSupport, thanked those in attendance for gracing the evening. The Guest of Honour, Subodh Bhargava, who is presently the Independent Director Chairman at Tata Communications Ltd and Wartsila India Ltd., and Director on the boards of several companies including Tata Motors Ltd, Tata Steel Ltd., Larsen & Toubro Ltd, Tata Communications International Private Ltd., and Sun Borne Energy LLC, shared his personal experience and talked about how crucial end-of-life care for the ailing is.

A short film about CanSupport's work was screened together with fun activities for everyone to partake in. Rahul Singh, Math Mentalist, boggled the attendees' minds with his tricks and number games. Ruchika and Deepak Castelino got everyone onto the dancefloor with their peppy numbers. Light-hearted moments were shared and the common spirit and vision of doing good made for cheerful, insightful interactions. The event was sponsored by Diageo India and supported by Curelo and we thank them for making the event a success.

### WHPCD 2024: Musical Evening with Noopur Sidhu Narayan

Contributing to the global movement that is World Hospice & Palliative Care Day (WHPCD), CanSupport organised a Melodious Evening of ghazals, geet, and Sufi music with singer Noopur Sidhu Narayan on 14 September at the Bahá'í House of Worship. She was accompanied by Dr Rajneesh Gupta on keyboard and harmonium, Dr Saarang Narayan on guitar, and Manoj Naagar on tabla.

The concert was attended by more than 400 people which included representatives from corporates, special guests from varied fields, medical professionals, students, and 49 cancer patients who are in our care. Mr K. R. Chawla, Deputy Drugs Controller, Delhi; Mr Asad T. Ansari, Drugs Inspector; Managing Committee member Prof Dr Rama Baru; Ms Malti Sachdev from Varian Medical Systems International India Pvt Ltd; Ms Prema Bhandari from John L. Bissell Foundation, and Dr Tapaswini Pradhan, Sr Consultant, Head and Neck Oncologist, Apollo Hospital were among the distinguished lot.

The soulful renditions of original compositions and some cherished classics by Noopur Sidhu Narayan left the audience mesmerised and truly stirred everyone. Several attendees got up on their feet and gleefully moved to the rhythm of the music. The evening surely made a lasting impact on everyone in the auditorium.

## CANSUPPORT EVENTS

### 'Remembrance Day' Commemorations held across states

CanSupport held 'Remembrance Day' meetings in five cities in different states in months past where family members and caregivers of patients who had been in CanSupport's care came together to pay tributes and in memoriam reminisce about their loved ones lost to cancer.

The event allows the attendees to pay homage and help them get some closure. It is also when we recognise and appreciate the efforts put in by our home care teams for their selfless dedication and spirit. Those in attendance lit lamps and wrote messages for those passed on the 'Tribute Tree'.

At Amritsar, we specially remembered Mr Shashi Bhushan Khanna for being a pillar of strength and significant support for CanSupport. We are truly saddened by his passing.

These events would not have been possible without the generosity and consideration of our collaborators and we would like to extend our thanks to: For Jamshedpur - Suri Seva Foundation, Meherbai Tata Memorial Hospital; For Amritsar - Bhavan's SL Public School, Suri Seva Foundation, & Kotak; For Sonipat - Cipla & Methodist Church; For Bathinda - Mata Ram Devi Dispensary, & BCL Industries Ltd., and For Rohtak - Cipla and Pandit Bhagwat Dayal Sharma Post Graduate Institute of Medical Sciences (PGIMS), especially with it being the first gathering there.

### Upcoming Event: CanSupport Walk for Life

CanSupport's biggest event - 'Walk for Life - Stride against Cancer' is back for its 18th edition!

The Walk is scheduled for February 16, 2025 at Jawaharlal Nehru Stadium.

This time round, in addition to the 3 km Walk, we have paid heed to the Running Enthusiasts and added a 5 km Run as well.

Registrations now open so book your spots and spread the word as well.

You can call us on 95995 58368 or Scan the QR code in the image to register and to get further information, please visit: [www.walkforlifeindia.org](http://www.walkforlifeindia.org).

**Let's all Walk, Run, and Stride Against Cancer!**

# TRAINING, EDUCATION & RESEARCH

## 5th Continuing Medical Education of Delhi State Chapter of IAPC organised

TQMRU (Training, Quality, Management and Research Unit) team organised the 5th CME (Continuing Medical Education) of the Delhi State Chapter of IAPC (Indian Association of Palliative Care), titled "Finding Light in the Shadows: End of Life Care in Last Days and Hours," on Saturday, 6 July. The event, graced by chief guests Dr. Seema Mishra, Dr. Sushma Bhatnagar, and Dr. Ambika Rajvanshi, saw the participation of around 50 attendees. Sessions were informative and featured esteemed external speakers who provided valuable insights into end-of-life care. A notable highlight was a role play on communication performed by AIIMS residents, which was both engaging and educational. The feedback emphasised the practical benefits of the sessions.

Overall, the CME was a great success, and fostered a collaborative spirit among palliative care professionals. We are enthused to hold similar events in the future to continue enhancing the quality of end-of-life care.

## MOU signed with O.P. Jindal Global University, Introductory Session held

We are exhilarated to have signed an MOU with O.P. Jindal Global University (JGU), Sonapat, Haryana to collaborate and we shall be exchanging academic and clinical skills together with jointly working on professional capacity building and training interventions among other objectives.

The team conducted a two-hour workshop on palliative care for students of MPH (Masters of Public Health) and faculty at the university with Dr Ishita Gandhi and Anamika Pandey as speakers. The interactive session introduced the foundational principles and its impact on improving quality of life for individuals with serious and life-limiting conditions. Insights into the psychological dimensions of palliative care, with emphasis on empathy and effective communication as key elements were also shared.

The session underscored the importance of educational outreach in palliative care, marking a valuable step in deeper understanding and collaboration within realms of public health.

Students and faculty engaged actively and enthusiastically queried about practices, dynamics, and real world challenges faced in the field.

# TRAINING, EDUCATION & RESEARCH

## Observerships by candidates from our collaborators

We had more than 60 participants do observerships with our teams for which they went on visits as part of our collaboration with Indian Association of Palliative Care (IAPC), Delhi. The candidates from AIIMS Hospital got the opportunity to observe and learn our methods and practices. These learnings greatly help in replicating the same for their respective departments' smoother functioning. Apart from those in Delhi-NCR, peripheral centres in Uttar Pradesh, Punjab, and Haryana were also involved.

In addition to them, Dr Sahil from Cipla, who are also one of our collaborators, experienced how a typical week for CanSupport teams goes as well. He got to better understand how systems are run and palliative care is provided to our patients and the caregivers through home visits, day care and other programs.

## Visitors at CanSupport

We encourage our partners, collaborators, and workers from our sector to get first-hand experience of how we operate and we had several visitors over the months at our various centres.

Mr Janardan and Mr Yashwant from Cipla visited our Mansa, Punjab centre and interacted with the team to understand their functioning and about their operations.[1]

We had Devanshi Vaid and Srishti Gupta from India Development CSNE, who observed and took interviews to develop a feature and create content pieces on palliative care to be published on IDR portal.[2] Lalith Parmar, President of Sankalp India, an organisation working in prevention, management, and cure for thalassemia in Bengaluru, was joined by Amrita from MK Hamied foundation and they both got to gain knowledge about our work with emphasis on training and quality control.[3]

A group of 4 nurses and a doctor from Arunachal Pradesh accompanied one of our teams and they carefully observed them. It was an opportunity for them to learn more about palliative care.[4] Aparna Sah, from Karuna Evan Shanti Vahini Foundation in Bandra, Mumbai, went with our team and was extremely moved to see their dedication and the quality of care they provide. She was focused towards seeing how we operate in the urban areas and was amazed with the meticulous documentation system, and the efficacy of Seva app.

We had international visitants at our head office as well who wanted to see our workings. Dr Maria L. Ekstrand, PhD, Professor Emeritus of Medicine in the Prevention Science Division for AIDS prevention studies, University of San Francisco, California, gained insight into our work through conversations with our staff and learning about the departments. We also got interns from American universities who engaged in activities to get some practical experience.[5]

# TRAINING, EDUCATION & RESEARCH

## Shimla team engages with the community

A workshop on Palliative Care was organised at Cancer Hospital, Shimla in August where information regarding the nature of care we provide was shared with the attendees. Our team also conducted a cancer awareness session during the All India Women's Conference in September and the participants eagerly queried about prevention, early detection, and how they can further spread the knowledge gained.

## Certificate Course in Counselling Completed

The Certificate Course of Palliative Counselling was successfully concluded in August with the participants having picked up the concepts and practices of palliative care. They got further familiarised to be able to apply the learnings in the field work.

## Workshops conducted in NCR Universities

A workshop on "Introduction to Palliative Care" was conducted at Shri Atal Bihari Vajpayee Government Medical College (ABV GMC) in Chhainsa, Faridabad. About 150 MBBS students and 20 faculty members from the radiation oncology, ENT, and orthopaedics departments. Dr Smita Taneja took the session and spoke about pain management as well. Anamika Pandey shared about communication, how to 'break the bad news', and collusion.

Another session was held at Gautam Buddha University (GBU), Greater Noida was organised for students of psychology and social work. Anamika Pandey and Dr Ravinder Mohan interacted with about 200 attendees and gave them crucial information to further explore concepts.

The feedback from participants was overwhelmingly positive, highlighting an eagerness to delve deeper into palliative care.

## Harmala Gupta in conversation with NewsX

Harmala Gupta was invited for NewsX's feature, 'We Women Want' where she conversed with Priya Sahgal. She shared about how CanSupport was incepted and came to fruition, and after 28 years, continues to provide free of charge services to those in dire need. She emphasised that palliative care must be made a part of universal health coverage and public health domain.

Scan to watch the full video

## Harmala Gupta featured at MAMC, Delhi

Harmala Gupta has been honoured with having her portrait featured in the corridors of Maulana Azad Medical College (MAMC), Delhi as a recognition of her significant contribution to health in India and to inspire the students and healthcare professionals at the educational institution.

# EMPLOYEE ENGAGEMENT ACTIVITIES

## Joyful creations made by Corporate Partners

As part of the Employee Engagement program, we organised one of our much loved activities, 'Toy for Joy', for two of our corporate partners who wished to get their teams to take out time for becoming aware about cancer and do their bit in contributing towards something for the young ones with cancer.

Firstly, in August, we held the activity with enthusiastic participants from the staff at SRF Limited, Gurugram. The teams created cute and cuddly soft toys for children fighting cancer.

The second one was at Adobe Noida in November, where additional employees also joined in virtually from Bengaluru to excitedly participate in the fun yet meaningful act of giving.

The love and warmth with which the contributors partook in groups translated to the wide smiles which were brought upon the kids' faces when we later shared these stuffed toys with the junior attendees of our Day Care.

## ABOUT EMPLOYEE ENGAGEMENT PROGRAM

CanSupport has been organizing Employee Engagement activities with corporate entities since 2018. The employees join in to give back to the society through online as well as in-person activities. The program features light-hearted activities designed to keep everything manageable. These cater to a wide range of employees' skills and interests. The focus is on making the overall experience memorable by providing the participants opportunities to fruitfully engage with cancer patients.

There is clear evidence which show that companies that encourage their staff to partake in volunteering or towards social causes develop an edge over others; as an organization and in preparing employees to do better in their careers as they develop leadership skills, and gain enthusiasm and confidence.

# DONOR FEATURE

**ElH Limited**  
A MEMBER OF THE OBEROI GROUP

## EIH LIMITED (FROM THE OBEROI GROUP)

An MOU was signed between CanSupport and ElH Limited, a flagship company of The Oberoi Group, in August 2024 to mark a beginning of a partnership committed to filling a critical gap in the continuum of care of patients with advanced cancer and empowerment of their caregivers.

Besides their commitment to ethical behavior in business, ElH Limited also extend its responsibility towards the environment and communities in which it operates and has several corporate social responsibility (CSR) activities, which include Environmental responsibility, Education and healthcare, Community development, Skill enhancement etc. One of the activities that the Company's CSR policy focuses on is 'caring for the elderly and addressing their health issues'.

With their assistance, CanSupport has been able to successfully start executing the planned project since its inception in April 2024. The beneficiaries of the programs supported by ElH Limited include elderly Cancer patients above 60 years of age suffering from all cancer types at all cancer stages in Delhi, NCR and Punjab. Apart from cancer, the elderly patients suffering from other serious illnesses like neuro-degenerative illnesses, or even those who are bedridden are being cared for in their homes. In addition to caring for the senior citizens, they have also contributed towards other programs which include Day Care, Ration Support, and Physical Rehabilitation through providing vital equipment, chemotherapy drugs etc.

The project has been initiated with five multidisciplinary teams made up of doctors, nurses, counsellors, and physiotherapists. The key deliverables include serving about 500 senior patients, and approximately 1,500 family caregivers, and nearly 4,000 young patients and caregivers visiting the Clinic & Day Care as beneficiaries and we are on track to accomplishing them through the home visits.

All aspects of quality of life – physical, functional, emotional, interpersonal and transcendental – are impacted by CanSupport's methodical approach, which offers patients pragmatic strategies to reclaim their sense of control. In addition, it gives families the knowledge and confidence to decide on care objectives as well as skills to cope and care, and also arrange resources to make an arduous journey manageable, significant, and unforgettable for all. We remain thankful for collaborations such as one we have got with ElH Limited, for the work we get enabled to do towards our cause.

## REMEMBERING MR HARCHARAN SINGH SURI

Mr Harcharan Singh Suri, a cherished and respected friend, mentor, devoted family man and philanthropist, passed away peacefully on October 5, 2024, at 84, surrounded by his loving family in Oakton, Virginia. His life was a testament to love, faith, and purpose.

After retiring from business, he dedicated himself to "seva"—selfless service—to serve others and honour the memory of his ancestors. He founded the Suri Seva Foundation, a nonprofit supporting education and health initiatives. Under his stewardship, the Foundation actuated several initiatives which included instituting palliative care services in Jamshedpur, India, which CanSupport has been a part of as a collaborator, and even setting up a healing garden for cancer patients.

He shall be missed for his infectious laugh and radiant smile that brought joy to all who knew him. His legacy of compassion and generosity lives on in the hearts of his global family and countless lives he touched.

**Harcharan Singh Suri**  
March 19, 1940 - October 5, 2024

Mr Purshottam Maheshwari is an Electrical Engineering graduate from IIT Varanasi who has been engaged in business since the 60s. A proud father of two sweet daughters who are settled in their lives are his steadfast pillars of support. He continues to live by the values inculcated by his parents, Late Mr Asaram and Mrs Vidya Wati Maheshwari. They ingrained in him one of the most important life lessons from an early age which is to be compassionate and considerate towards those who are in dire need of the most basic essentials. When he got to know about CanSupport, he was impressed by the work we do with sheer dedication for Palliative Care of cancer patients. He is glad to have been able to contribute towards the cause and wishes to have an enduring association with us. He also urges everyone to render their support in whatever capacity they can.

## BENEFACTOR FEATURE

# DONOR FEATURE

## MEETUP ORGANISED BY OPTUM GLOBAL SOLUTIONS INDIA PVT LTD

Optum got its partners together for a meet up in Hyderabad in September for which Dr Ambika Rajvanshi, CEO CanSupport, accompanied by team members, represented the organisation. They got to showcase the work we have been doing and the strides we have been making in the field of palliative care. They shared how we have expanded thus far with other partners and it was

stimulating to learn more about them as well. Apart from Sir Andrew Witty, CEO of UnitedHealth group, and Uma Ratnam Krishnan, MD from the leadership team, they also got to interact with other officials from Optum India's team and it was indeed a wonderful opportunity to get to learn about our collaborator and their affiliations.

## CIPLA FOUNDATION HOLDS PARTNERS MEET

CanSupport was invited by Cipla Foundation, one of our generous supporters, to attend the Annual Palliative Care Partners' Meet held on 18 & 19 November. We were one of the forty partners at the event which was aimed at establishing networks and collaborations among various palliative care partners across India who Cipla works with. They want their

nationwide palliative care providers to come together to improve overall services, learn from each other's experiences, and engage with the Cipla leadership team. Several sessions were led by partner organisations where they shared accounts of sensitisation of local policymakers to understand the importance of palliative care and how they have garnered assistance in the field. It was a fantastic occasion to interconnect and exchange ideas with others working towards a cause similar to ours.

## VOLUNTEER WITH CANSUPPORT

Are you a student of Psychology, Social Work or pursuing higher studies and would like to get a certification on your resume from leaders in palliative care running India's largest home-based programme?

Then, the Internship Program at CanSupport is for you!

At any given time, our teams are caring for 2600 cancer patients and their families. You get to be at our centers or in the field. Taking part in learning how our Homecare, Resource Mobilization, Daycare, and Communication departments function, you acquire varied skills from our seasoned staff and volunteers and get an understanding of how we have been doing this since 1996.

Get in touch: Navdha Bharadwaj | [navdha@cansupport.org](mailto:navdha@cansupport.org) | 9599558368
